**K-12 School Security: A Hybrid Solution**  
*David Beaty and Daryl Brown, Horry County Schools*

Contemporary times present challenges for key stakeholders who attempt to meet the increasing public expectation that K-12 campuses have an armed presence on all campuses. Traditional School Resource Officer programs may be hampered by attrition and recruiting concerns that are being experienced by police departments across the country. The decision to determine operational priorities can be complex and divisive when law enforcement executives have to decide if their resources are more effectively deployed as campus security or keeping officers dedicated as first responders. Additionally, questions frequently arise pertaining to providing campus security in public schools. Who is responsible for funding this service? What is an equitable share where school districts and local governments are concerned? Are there viable options available to districts when law enforcement is unwilling or unable to dedicate sufficient resources on school campuses? Horry County Schools was recently faced with a situation that eventually led to an innovative approach which now utilizes private security while retaining the services of municipalities that desired to continue a traditional School Resource Officer partnership. This presentation discusses the many different aspects associated with utilizing armed private security resources and details the hybrid program that has been implemented in Horry County.

Intentional Administrator and School Counselor Conversations- The Annual Administrative Conference

Jennifer Adams, Gilbert High School

The annual administrative conference, a required component of the American School Counselor Association (ASCA) National Model: 4th Edition, outlines the school counseling program’s organization and is made every year between each school counselor and the administrator in charge of the school counseling program. This document ensures formal discussion between school counselors and the administrator about the alignment of school counseling program goals with the school goals and can increase an administrator's understanding of school counseling program priorities. When school counselors and administrators collaborate and agree on program priorities, strategies, goals and organizational structures, the school counseling program is more likely to produce the desired results for students.
